

Workplace Improvement Survey

Contribute Your Insights for an Enhanced Workspace Experience.

01

How would you describe your **current desk setup and working environment**? What **aspects do you find most beneficial or challenging** in terms of desk configuration, sitting/standing configuration, storage and your general space?

02

Are there any **specific tasks or activities** that you feel could be better supported by your current setup and working environment? Please elaborate on any **storage or acoustic considerations** that may have some effect on your productivity.

03

How do you perceive the **current storage options and surrounding space at your desk**? Are there any **limitations or improvements you would like to see** in terms of organising your materials, supplies, or personal belongings?

04

From an acoustic standpoint, do you feel that your **current working environment adequately supports your focus and concentration**? Are there any **particular noise-related challenges or suggestions** you have for improving the acoustic conditions if you feel they need to be reviewed?

05

In terms of collaboration and communication, what **aspects of your current desk setup and working environment either facilitate or hinder your ability to work effectively** with your colleagues?

06

What **specific storage solutions or features** would you like to have at your desk that would **enhance your organisation and accessibility** for materials and supplies?

07

How do you envision striking a balance between **storage capabilities and maintaining a productive and comfortable environment** in the workspace?

08

Are there any other **suggestions or ideas** you would like to provide to **improve the functionality, storage, and acoustics** of your current working environment?

09

How would you describe the **current culture, look, and feel of our workspace?** Are there **any aspects of the existing environment that contribute to a positive or negative experience?**

10

In your opinion, do you believe that incorporating **elements inspired by nature (such as biophilic design), strategic use of colours, finishes, and dedicated spaces for collaboration and relaxation** in the overall office plan could **enhance your well-being, creativity, and productivity?** If you think they would have a positive impact, how would you envision these elements being utilised to create a more conducive work environment for yourself?

11

Finally, do you have any additional feedback or recommendations related to the **overall design and functionality of your workspace that would contribute to a more productive and comfortable work environment?**

Are you looking to turn your vision into a reality or solve a planning challenge?
